Ms. Cheryl Reedy, Director
H.R.R.A
Old Town Hall
162 Whisconier Road
Brookfield, CT 06804

Dear Ms. Reedy;

I am writing in response to your conversation with John Gundlach regarding our ongoing efforts to promote food waste composting in Connecticut and most importantly within the communities who are members of the H.R.R.A.

As John may have mentioned, it is our goal to have this program up and running within the H.R.R.A. communities in 2009. In order to promote the program, New Milford Farms will reduce the tipping fee from \$55 per ton, to \$ 39.50 per ton for the material collected within a member community through December 31, 2009. We hope this alternative-solution promotion will be an incentive to all of the waste haulers in the area for handling their customer's food waste.

In addition, we would also like to extend another opportunity to back haul bulk materials from our New Milford facility. The idea is to help offset transportation costs as well as help their customers find ways to receive landscape materials at a lower cost. Attached are our food waste brochure and a price list for our bulk materials for you to sell to your customers or businesses in the area.

I am available to answer any questions from the waste haulers / communities as well as provide guidance on how to start a food waste collection program. We look forward to seeing this program grow, as well as help the H.R.R.A. see the launch of a successful service in Western Connecticut. I can be reached at 860-210-0250 Ex 460. My email address is bruce.hillier@garick.com.

Regards,

Bruce Hillier
General Manager
New Milford Farms
