Chairman’s and Members’ Comments

M. Gill acknowledged Brian Sullivan, Bridgewater’s new HRRA alternate to the meeting. R. Marconi welcomed Zach Carfi, an intern from the Town of Ridgefield to the meeting.

M. Gill noted there was a significant increase in traffic at the Newtown HHW event in May. The cars were nearly double from the previous year.

Director’s Report

J. Iannucci presented the Director’s report on behalf of C. Reedy. Items highlighted included the continued downward trend in MSW tonnage, the numerous schools HRRA visited at the end of the
school year, MSW Associates and Public Act. No 14-94 and pointed out the most significant change is CRRA becoming MIRA (Materials Innovation and Recycling Authority).

R. Marconi asked if HRRA would recommend an investigation whether or not Ridgefield should implement flow control to help manage the loss of MSW tonnage leaving the system. M. Gill does not believe the situation is as dire as it may appear given that HRRA gets credit for the recycling. M. Boughton mentioned the issue may be moot if the other Transfer Station in Danbury is constructed, it is likely HRRA will lose all tonnage to the new facility.

Old Business
a. Bridgewater Organics Pilot Update – J. Iannucci gave a brief update on the Bridgewater Organics Pilot Program. To date, 9260 lbs. or 4.63 tons have been collected from 120 residents each week over 11 weeks. The program is ending its third month and a mid-way program survey will be administered in the coming weeks. The program is not paying for itself and in order to do so more residents will need to sign-up.

b. Update on battery stewardship national dialogue held in Connecticut – J. Iannucci gave a brief update on the battery dialogue she and C. Reedy attended on June 11th and 12th. Four leading battery interest groups – the Corporation for Battery Recycling (CBR), the leading battery manufacturers from the National Electrical Manufacturers Association (NEMA), PRBA – The Rechargeable Battery Association and Call2Recycle, Inc. – unveiled an all-battery model recycling bill in the afternoon of the first day of meetings. It is hopeful an all-battery bill will pass in 2015 making Connecticut the first in the nation.

c. Update on MSW Associates VRF DEEP permit intervention – M. Gill shared with the Authority that the scheduled meeting with J. Putnam to discuss a possible agreement with HRRA was canceled by Putnam at the last minute. J. Iannucci reported the MSW Associate proceedings have been delayed until mid July. The following dates have been set July 20, 21, 25 additional dates will be needed. MSW Associates submitted a change in their plan the day before the first hearing which created a small delay. According to B. Metzler the hearings themselves are going slower than he had predicted. The following order of proceedings was handed out to the members.

The order of proceedings:
