HRRA

January 24, 2019

Old Town Hall

C/O Rudy Marconi

162 Whisconier Road

Brookfield, Ct 06804

Dear Mr. Marconi,

As we approach the beginning of our long-term partnership, designed to effectively and efficiently manage our areas solid waste and recycling needs, I am writing as a follow up to our recent meeting and to officially communicate some of the changes in the market place since we last met.

Approximately one year ago we collectively worked together to create a contractual relationship founded on the market conditions at that time. We did our best with the knowledge we had and appropriately incorporated the opportunity for changes as needed to ensure a sustainable relationship that would effectively manage waste and recycling streams for many years to come.

You may recall from our meetings my continued expression of concern for the dramatic changes we were already seeing in the MSW and Recycling markets. I communicated the need for me to quickly enter the market to secure the future of our agreement as soon as possible. Changes that have proven historical in scale and unrealistic that anyone could have fully understood at the time. Disposal capacity and expense, trucking availability and expense, plus the complete and absolute collapse of the recyclable commodity markets have made a dramatic and very likely long-term impact on our industry, especially in the northeast US.

The good news is we were able to secure a long-term outlet for the disposal of our solid waste for the next ten years.

Please do not underestimate the value of this secure outlet. You may have been following the disposal crisis in our area that we first encountered last spring, which has continued even during these winter months when waste generation is at its lowest seasonal point of the year.

ATTACHMENT B

MIRA for example is a current topic in the news as they endure significant disruptions in their ability to manage solid waste and are incurring a tremendous financial impact as well. Almost every facility in the state experienced similar circumstances throughout the summer and the fall of 2018 and the forecast for 2019 looks even more challenging.

This situation has also had a dramatic impact on trucking capacity, availability and expenses even during the "off peak" winter months. Every facility in our state and in fact the tristate area is simultaneously pursuing alternative outlets for their material.

So where does this leave us? We are gratefully in a position with a secure outlet for our material for many years to come, however market conditions certainly imposed challenging influence on our pricing.

You may recall paragraph (f) under section 7.2 of our agreement linked our inbound tipping fees to the outbound expenses associated with Transfer, Transportation, and Disposal of the HRRR material. The anticipated combined cost of these components was recorded at \$55.00 per ton. As the supporting documentation which I shared during our meeting in Bethel on January 11th demonstrated, the actual combined costs of these components are significantly higher today. Two of these components are independent third-party expenses for which I receive a bill from a vendor. The Transfer component is an internal cost directly related to labor hours and equipment time. Given the circumstances I would request an opportunity to recover at least the third-party service expenses that are greater than were expected at the time we drafted our agreement. Please consider this request under 7.2 (f) of our agreement in order for our operation to remain viable.

For Reference:

7.2 "The pricing and other terms set forth in this Agreement have been determined and agreed to based upon"

(f) "Transfer, transportation and disposal costs incurred by WB being, in the aggregate, up to \$55. If there is a material change in any of such factors, then the parties agree that they will negotiate in good faith to modify the terms of this Agreement in an equitable fashion, as appropriate, to address the economic impact of such material changes(s).

What this will now look like beginning July 1, 2019 is an inbound tipping fee to all haulers including Oak Ridge Waste & Recycling greater than presently outlined in our agreement.

Please consider this letter my formal request to exercise our ability to recover increases in expenses under paragraph 7.2 (f) and acquire your formal approval to do so beginning July 1, 2019.

In addition, during those same discussions a year ago, with the absolute best of intentions, we all agreed to work towards incorporating new processing equipment into our solid waste management program to begin recovering recyclables from the MSW waste stream. As previously mentioned, the recycling markets have experienced a complete and absolute collapse in material marketability and value. We are currently finding ourselves working endlessly to try and maintain a sustainable operation from the

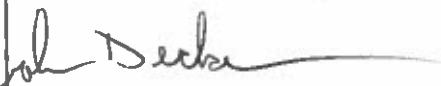

recovery of materials in our Single Stream recycling center and seeing no path towards even a break-even operation in trying to do so from an MSW waste stream.

Therefore, I am also formally requesting that we defer indefinitely at this point the potential installation of any new equipment intended to try and recovery recyclable material from the MSW stream until such time as markets for said material provide a viable opportunity to explore such an operation.

Please note that we do have another option as we currently operate a variety of sorting equipment in our C&D and recycling operations located at 307 White Street. We will commit to do our very best to direct MSW loads identified as containing a high recyclable content (ie. Walmart, Home Depot etc.) to these operations as appropriate in an effort to recover as much material as possible.

Mr. Marconi, I sincerely appreciate the time and consideration of both you and the Authority. As with any long-term agreement we do our best during negotiations to learn from history and anticipate the unexpected. I feel strongly we can take pride in the agreement we reached and its ability to adjust to changing times in order to ensure a sustainable outcome for all parties. Thank you again for all of your time and I look forward to hearing from you soon.

Gratefully Yours,
