Presentation from Fire Control Services regarding Fire Extinguishers

Tom McSherry from Fire Control presented to the RRTF the services they provide at their New Milford location. They refill and re-pressurize canisters. They can offer to take the units from towns. They will come up with a fee schedule and get back to the HRRRA. He also explained the different types of extinguishers and the agents used for the different types of fires. Many extinguishers are still viable even after the expiration date. They can test the pressure if needed. They dismantle thousands of units per year and recycle the parts.
